# Dataspace

DB2 table spaces or SQL/DS DBspaces are documented with objects of type *dataspace*.

> **Note:**
> DB2 storagegroups are documented with objects of type *storagespace*.

In the Predict metastructure a dataspace can have passive and active associations of the following types:

Valid passive association: *Located in DA* (default passive association)

Valid active association: *Contains FI* (default active association)

This section covers the following topics:

- Dataspace Maintenance Menu
- Dataspace-Specific Maintenance
- Dataspace Retrieval
